

# Contents

• Introduction .....	I
<b>1 • About Timber Framing.....</b>	<b>5</b>
A Little Background .....	5
Timber Framing versus Standard Stud Construction .....	6
Grading Lumber: The Good, the Bad and the Ugly .....	8
Timber Framing: Advantages and Disadvantages.....	II
“Traditional” Timber Framing.....	13
Timber Framing for the Rest of Us .....	14
<b>2 • Basic Timber Frame Structure .....</b>	<b>15</b>
Load and Line of Thrust .....	15
Compression .....	17
Tension .....	17
Compression and Tension in Beams .....	18
Bending and Bending Failure .....	19
Shear and Shear Failure.....	23
Deflection .....	25
Post and Beam Frame .....	28
Plank and Beam .....	29
Design Considerations for Rafters and Girders .....	31
Cantilever .....	33
Your Post and Beam Plans.....	35

<b>3 • Procuring the Timbers.....</b>	41
Recycled Timbers .....	41
Cultivating Coincidence .....	45
Evaluating Recycled Timbers .....	46
Timbers from Your Own Land .....	48
Hardwoods .....	48
Softwoods .....	50
Timber from Small Sawmills .....	51
Portable Sawmills .....	52
Chainsaw Mills .....	53
Seasoning the Timbers .....	58
 <b>4 • Building Techniques: Timber Framing for the Rest of Us .....</b>	61
Foundation Options .....	61
Post Height .....	64
Fastening the Timber Frame to the Foundation .....	65
Sill Plates and Sill Beams .....	68
Some More About Doorframes and Posts .....	70
About Metal Fasteners .....	72
Wind Can be a Serious Problem... .....	75
Tying Posts and Sills to the Foundation .....	76
Fastening the Girt to the Top of the Posts .....	78
When Two Beams Meet Over a Post .....	81
Timber Framing Hybrid .....	84
Build Quality, Gravity and Inertia .....	87
Roof Systems .....	88
Roof Timber Framing for the Rest of Us.....	91
More About Trusses .....	96
Plank and Beam Roofing .....	96
Insulating Plank and Beam Roofing .....	100
Joe's Rocket Research Landing Pad – A Photo Essay .....	101

---

<b>5 • Case Study – The Sunroom at Earthwood .....</b>	107
Design Overview of the Project.....	107
Design Questions and Plans .....	108
Work Begins.....	113
Extended Floor Joists .....	113
Fastening the Joist to the Girder.....	115
Installing Headers.....	115
Installing the Secondary Joists .....	119
Floor (Decking).....	120
Preparing the Girders .....	121
Installing Posts.....	122
Installing the Girders.....	127
Installing the Five-by-Ten Rafters .....	128
“Balance Beam” Secondary Rafters .....	130
Planking the Roof .....	131
The Earth Roof .....	132
Closing In .....	134
The Finished Room.....	137
 • <b>Appendix A: Span Tables .....</b>	139
 • <b>Appendix B: Stress Load Calculations for Beams .....</b>	143
 • <b>Appendix C: Resources .....</b>	153
 • <b>Glossary of Terms .....</b>	161
 • <b>Bibliography .....</b>	169
 • <b>Index .....</b>	173
