<b>Acknowledgments</b> . . . . .	vii
<b>Introduction: The Steaks Are High</b> . . . . .	1
What's Wrong with Livestock? What's Wrong with Meat? • Addressing Livestock and Meat Is Key to Food Security • We're Capable of Eating Less and Better	
<b>PART 1: WHY? REASONS FOR EATING LESS MEAT</b>	
<b>1. We're on a Binge</b> . . . . .	15
“...Now I Eat Meat Twice a Day” • We're Climbing the Food Chain to Dangerous Heights • There's a Push for Mass Production and Consumption • Excessive Supply Drives Excessive Demand	
<b>2. Too Many Livestock Compromise Land and Climate</b> . . . . .	25
Meat Should Make Environmental Sense • Livestock Today Casts a Long Shadow • It's Deforestation and It's Gas Production • In Large Numbers, All Livestock Add to Climate Change • Wealthy Countries need to Lower Consumption	
<b>3. Water Is Being Used and Abused</b> . . . . .	41
Activists Are Testing the Waters • Waste Is Not a Pretty Topic • This Much Manure Isn't Fertilizer, It's Pollution • Water Around the World Is Getting Wasted • Sufficient and Clean Water Should Be Priorities	
<b>4. Too Much Meat Adds to Illness and Disease</b> . . . . .	57
Moderation Is a Prescription for Health • Factory Farming Fuels Animal-to-Human Diseases • Intensively Raised Livestock Get Drugs • Antibiotics Are in a Class of Their Own • Lifestyle Diseases Get a Hand from Too Much Meat • Healthy Solutions Include Eating Less and Better	
<b>5. Food Systems Should Reflect Our Values</b> . . . . .	81
We Want Quality of Life • We Want Local Control • We Want	

Food Systems to Strengthen Environmental Health • We Want  
Food Systems to Reflect Our Values

**PART 2: HOW? STRATEGIES FOR EATING LESS MEAT**

<b>6. Everyone Can Work Toward Less and Better Meat . . . . .</b>	<b>99</b>
It's Perfectly Acceptable to Ask People to Eat Less Meat •	
Everyone Can Be Involved in This Project • Meat Can Be Made	
More Sustainably • Social Systems Can Change. People Can	
Change • How Much Less?	
<b>7. People Can Moderate Their Consumption . . . . .</b>	<b>117</b>
Take It from a Chef • We Can Be Personal Agents of Change •	
We Can Develop New Attitudes and Strategies • We Can Be	
Healthier by Eating Less Meat • We've Already Started This Project	
<b>8. Food Policy Can Ensure Sustainable Production . . . . .</b>	<b>133</b>
Taxes Could Be on the Table • Meat Policy Should Be Central to	
Food Policy • Policy Can Encourage Healthy Consumption •	
Policy Can Improve Livestock Production • Two Key Strategy	
Areas: Fewer Antibiotics and More Animal Welfare • Policy Needs	
to Accommodate Farms Like Sap Bush Hollow • Solutions May	
Require International Cooperation	
<b>9. Society Can Overcome the Barriers . . . . .</b>	<b>157</b>
Social Norms Can Shift • Meat-Eaters, Vegans, and Everyone	
Else Can Be on the Same Team • Political Impediments Can Be	
Addressed • Corporate Influence Can Be Questioned • We Can	
Educate Ourselves About the Meat Problem • Citizens Can Prevail	
<b>10. Consumers Will Help Lower the Stakes . . . . .</b>	<b>175</b>
The Meat Problem Is Amenable to Solutions • We Can Get	
Inspired • High Steaks Is a Theme for Our Time
