

# Contents

<b>1. Introduction</b> . . . . .	1
Why Learn About Microbes? . . . . .	3
Terms Used in This Book . . . . .	5
<b>2. The World Under a Microscope</b> . . . . .	9
Microbes by the Numbers . . . . .	9
Microbes Are Important to Plants . . . . .	10
Microbes Can Harm Plants . . . . .	17
Gardeners Affect Microbes . . . . .	19
How Do Microbes Move Around?. . . . .	22
How Much Do We Really Know? . . . . .	23
<b>3. Bacteria</b> . . . . .	25
How Do Bacteria Eat? . . . . .	26
Where Do Bacteria Live?. . . . .	27
Life Cycle of Bacteria. . . . .	28
Nitrogen-Fixing Bacteria. . . . .	30
<b>4. Fungi</b> . . . . .	35
What do Fungi Eat?. . . . .	36
Where Do Fungi Live? . . . . .	38
Life Cycle of Fungi . . . . .	38
Pathogenic Fungi . . . . .	41
Mycorrhizal Fungi . . . . .	41
<b>5. Yeast</b> . . . . .	51
Life Cycle of Yeast . . . . .	52
Yeast-Plant Interactions . . . . .	53

Yeast in Hellebore Nectar . . . . .	53
Yeast Creates Alcoholics . . . . .	54
Yeast on Leaves . . . . .	54
Yeast in Soil . . . . .	56
A Bioindicator of Air Quality . . . . .	56
A Possible Solution to Plastic Pollution . . . . .	56
<b>6. Nematodes . . . . .</b>	<b>57</b>
<b>7. Protozoa . . . . .</b>	<b>59</b>
Life Cycle of Protozoa . . . . .	63
Nutrient Cycling . . . . .	63
Protozoa-Plant Interactions . . . . .	63
Plant Diseases . . . . .	64
<b>8. Viruses . . . . .</b>	<b>65</b>
Viruses in Soil . . . . .	66
Life Cycle of a Virus . . . . .	67
The Spread of Viruses . . . . .	68
Virus Infection of Microbes . . . . .	70
Virus Infection of Plants . . . . .	72
Rapid Mutation . . . . .	75
Beneficial Interaction with Plants . . . . .	75
<b>9. More Microbes . . . . .</b>	<b>77</b>
Archaea . . . . .	77
Actinomycetes . . . . .	78
Cyanobacteria . . . . .	80
Algae . . . . .	81
<b>10. Microbe Communities . . . . .</b>	<b>83</b>
Microbe Communities and Microbiomes . . . . .	83
Signaling Between Microbes . . . . .	85
Microbes Attack Microbes . . . . .	87
Mycorrhizal Interactions . . . . .	90
Lichens . . . . .	93

<b>11. Plants Love Microbes . . . . .</b>	<b>95</b>
Nutrient Availability . . . . .	95
The Phyllosphere . . . . .	98
Rhizosphere . . . . .	108
Rhizophagy Cycle . . . . .	116
Seed Microbiome . . . . .	118
<b>12. Manipulating Microbes . . . . .</b>	<b>123</b>
Fungal-to-Bacterial Ratio . . . . .	123
Effect of Agriculture . . . . .	127
Biodiversity . . . . .	134
<b>13. Bioinoculants for the Garden . . . . .</b>	<b>137</b>
Bioinoculants for Seeds . . . . .	137
Bioinoculants as a Foliar Spray . . . . .	139
Bioinoculants for Soil . . . . .	139
Microbes Are No Longer Living. . . . .	140
Should Gardeners Use Commercial Bioinoculants? . . .	142
Compost Tea . . . . .	144
<b>14. Pathogens . . . . .</b>	<b>147</b>
You Suspect a Disease—What Now? . . . . .	148
List of Plant Diseases. . . . .	149
Fighting Plant Diseases . . . . .	152
Commercial Pesticides. . . . .	155
Human Diseases. . . . .	157
<b>Endnotes. . . . .</b>	<b>161</b>
<b>Index . . . . .</b>	<b>165</b>
<b>About the Author. . . . .</b>	<b>175</b>
<b>Also by the Author . . . . .</b>	<b>176</b>
<b>About New Society Publishers. . . . .</b>	<b>182</b>
